Dr. Mikel H-G Hoff

ANF Inventor/Instructor

QUALIFICATIONS

From very early on I have always wanted to help people, as well as been very interested in the human body; whilst others were reading comics I was reading about the brain, cells and how all are connected. I was and still am fascinated by how the body could work and do so many things. The nervous system was the key to coordinate and control everything. I have dedicated much of my free time to understand how all of this is possible, from stem to brain. Nowadays I teach all that I have learnt over the years to fellow practitioners worldwide.
